Enterprise Edition 10.0 General Release in New Year

PRINCE ALBERT – DECEMBER 21, 2009 – After a successful beta release, Solid today announced that the general release of Solid Route Accounting™ - Enterprise Edition™ version 10.0 will occur early in January, 2010. The version 10.0 release includes a number of new standard features along with additional optional licensed features that extends the automated functionality of Solid Route Accounting - Enterprise Edition. The new features are as follows:

New Standard Features

- Linked Parts extended to the mobile system
- Ecology Charges
- Customer Sales2 report printed by Customer Route Group or Customer Price Group
- Printing the Inventory Valuation report by individual Cost Centers has been corrected
- Picked Orders can now be printed using a mobile unit licensed for Delivery Confirmation
- Deleting a Customer record now automatically will delete the related EDI Setup record if it exists

New Optional Licensed Features

- Customer Route Sheets/History
- Direct Plus EDI enhancements to include Environmental Deposits and Ecology Charges

Come January, all clients will have the chance to experience the new Enterprise Edition features. For anyone interested in Solid Route Accounting™ - Enterprise Edition™ version 10.0, contact [Nancy Sagardia](#), Product Specialist of Solid Innovation for more information, or learn about the new system on Solid's website at: <http://www.solid-innovation.com/products/SolidRouteAccounting-EnterpriseEdition.php>.
