

Si Route Accounting

Why choose **Si Route Accounting**?

Because it's a complete business system providing unified business operation and control for today's mobile companies.

Si Route Accounting, by Solid Innovation, includes the easy to use **Si Sales Pro**, **Si Mobile Central**, and **Si Business Central**. These products compliment each other by providing the enterprise minded business the tools to extend business rules to local and mobile points of sale. Concurrently, pricing rules, customer, supplier, inventory, and financial information is driven by and collected into a unified business system.

Si Sales Pro:

- Moves mobile sales staff through orders up to 60% faster.
- Fast and easy to learn; proven, reliable operations.
- Handles orders, sales, special pricing, inventory control.
- Runs on a wide variety of proven PDA computers.

Si Mobile Central:

- Automatic, reliable connection and settlement for **Si Sales Pro**. It's like watching paint dry.
- Handles multiple concurrent sessions quickly.
- Easily configured to handle local, wireless, modem connections.
- Runs on today's Windows computers.

Si Business Central:

- A central business system to direct pricing rules, invoicing, customer information, routing.
- Multiple Warehouses/Points-of-Sale, to provide for local, mobile, and remote (in other buildings and cities) warehouses.
- Multiple Workstations to allow for mobile POS as well as local POS.
- Full GL, A/R, A/P, Inventory Control.
- Full reporting capabilities.

Other Business Products:

Si Route Accounting is further extended with perfect integration with:

- **Si Visual Analyst** - a powerful data warehouse coupled to an easy-to-use visual analysis interface. This product makes the analysis of sales results easy. Provides for analysis by Cost Centre/Warehouse, customer, customer group, inventory SKU, or product line week by week, for many years.
- **Si Journey Plan** - an easy to use tool to schedule customer stops to ensure complete coverage, coupled with detailed analysis and monitoring capabilities.
